

Easyflex

Double Arch Floating Flange Bellow (Series EFTS)

Vv VibraSystems

Applications

- Pressure piping systems in building equipment and general industrial plants.
- Pump and turbine lines used for power generation plants, industrial machinery and universal pump blowers.
- Feed-water & drainage lines for waterworks & sanitary piping systems.
- Pipelines for industrial plants and shipbuilding yards.

Features

- Applicable for suction and delivery (discharge).
- Designed for greater compression, elongation, and angular movement than the single sphere expansion joint.
- Excellent for absorbing thermal expansion and eliminating sound and vibration.
- Gaskets and packing not required.
- Good electrical insulator.
- Absorbs water pulsation and minimizes water hammering.

Operating Conditions

Size Range	1-1/2"-24"
Operating Pressure	up to 290 psi - 20 bar
Operating Temp. Range*	14°-170°F / -10°-77°C (NEO) 14°-239°F / -10°-115°C (EPDM)
Test Pressure	435 psi - 30 bar
Vacuum Rating*	Contact Easyflex

Note: Also Available in 145/232 psi - 10/16 bar.

Materials

Part	Part Description	Material
1	Flanges	Mild Steel - Electro-Plated
2	Reinforcing Fabric	Nylon
3	Reinforcing Wire	Mild Steel
4	Tube/Cover	NEO/EPDM
5	Strengthening Ring	Mild Steel Plated / SS304

24"	600	13-3/4"	349	1-9/16"	40	1-1/8"	29	1-1/8"	29	20°

Note: Customized for flanges ANSI-150, ANSI-300 and DIN (Other Drilling Available on Request)

Warning: Do NOT elongate rubber expansion joints when installing for suction service.
